The International System of Units (SI, abbreviated from the French *Système international (d'unités)*) is the modern form of the metric system. It is the only system of measurement with an official status in nearly every country in the world. It comprises a coherent system of units of measurement starting with seven base units, which are the second (the unit of time with the symbol s), metre ...

Tun/tap interfaces are a feature offered by Linux (and probably by other UNIX-like operating systems) that can do userspace networking, that is, allow userspace programs to see raw network traffic (at the ethernet or IP level) and do whatever they like with it. This document attempts to explain how tun/tap interfaces work under Linux, with some sample code to demonstrate their usage.

Emily- re. sheet pans. I'm a fan of Chicago Metallic, but every year about this time Sur La Table does like 20 or 30 percent off their own bakeware, which is great for stocking up on a few missing items for relatively little \$\$\$. Their sheet pans are also pretty good. Chicago Metallic is my absolute favorite though, honestly for nostalgia and more out of habit, than anything (my mom used them ...
