

OPERATIONS RESEARCH BY KNOWLEDGE FLOW

Dec 02, 2020

[Operations Research By Knowledge Flow](#)

Operation Research is concerned with the application of the principles and the methods of science to the problems of strategy. The subject of operation research was born during Second World War in U.K., and was used for military strategy. During World War II, a group of scientists, having representatives from mathematics, statistics, physical and social sciences were entrusted to the study of various military operations. This team was very successful and greatly contributed to the ...
