[The World Without Us Alan Weisman](#)

The World Without Us by Alan Weisman is a penetrating, page-turning, exploration of how our planet would respond without the relentless pressure of the human presence.

[Die Welt ohne uns – Wikipedia](#)

In "The World Without Us," Alan Weisman offers an utterly original approach to questions of humanity's impact on the planet: he asks us to envision our Earth, without us. In this far-reaching narrative, Weisman explains how our massive infrastructure would collapse and finally vanish without human presence; which everyday items may become immortalized as fossils; how copper pipes and wiring ...

[Alan Weisman – Wikipedia](#)

Alan Weisman's The World Without Us is supposed to explore what would or could happen to our world if humans suddenly ceased to exist. Weisman does do this, but he must of necessity discuss how we have altered/destroyed much of our world, in order to illustrate what would happen if we were to disappear. So, Weisman takes us on a tour from the mass extinction of the passenger pigeon in North ...

In The World Without Us, Alan Weisman attempts to answer the question of what would happen to the earth if, for whatever reason, humans were to completely disappear tomorrow. While it's a fascinating premise, one that Weisman undoubtedly put a lot of time and effort into, the execution falters. Inevitably, it's hard to stretch what was initially a short essay into a full book, but that's how

Without them, we couldn't exist. It's that simple, and we can't afford to ignore them, anymore than I can afford to neglect my precious wife--nor the sweet mother Earth that births and holds us all. Without us, Earth will abide and endure; without her, however, we could not even be." ? Alan Weisman, The World Without Us

In a world without us, what traces of us would linger, and which would disappear? Weisman writes about which objects from today will vanish; which will become relics and fossils; how our pipes, wires, and cables will be pulverized into an unusual (but mere) line of red rock; why some museums and churches might be the last human creations standing; and how plastic, cast-iron, and radio waves ...

Alan Weisman (2012). "The World Without Us", p.287, Random House 4 Copy quote. The real people who hold our civilization together are the maintenance people. If it weren't for them - pumping water out of subways, painting bridges to keep from rusting, fixing a steam pipe that is 70 years old - we'd be sunk. If we got rid of all the politicians and the policymakers in the world, the world ...
