Incident reports entered into the Online Accident Reporting System (OARS) are screened by EH&S. We triage the reports and forward to others as needed based on the type and severity of the incident. The OARS reports are also sent to their assigned Organizational Health and Safety Committee each month. The committee members review reports and assist with additional follow-up if needed.

According to the criteria presented in the Diagnostic and Statistical Manual of Mental Disorders (DSM), a pathological gambler may be and often is defined by the presence of at least a few of these consequences (American Psychiatric Association, 1994). Discussions of the costs to the individual of pathological gambling would be circular if we claimed to "discover" these consequences. Instead ...
